Power Mac 8200/120

The Power Macintosh 8200/120 combines affordability with high performance to provide an ideal system for small and medium size businesses, for home offices, and for running productivity applications in organisations of any size. It features a 120 megahertz PowerPC 601 processor and an 8x-speed CD-ROM drive.

The three industry-standard PCI expansion slots on the Power Macintosh 8200/120 let you customise your computer easily to more precisely meet your needs. If you want to use your Power Macintosh 8200/120 to run MS-DOS™ and Windows™ applications as well as software written for the Macintosh, you can install an Apple PC Compatibility Card in one of the system's PCI slots - and switch instantly between the two computing environments. Connecting Power Macintosh 8200/120 to an Ethernet network is easy, because it includes both AAUI and 10BASE-T connectors.

The Power Macintosh 8200/120 is supplied complete with Microsoft™ Office Vs 4.21 preinstalled and all of the software you need to access the Internet easily and rapidly.

New Apple Computer Systems

Power Mac 7600/132

The Power Macintosh 7600/132 is a powerful, flexible desktop computer that offers the feature that more and more users are looking for: processor upgradability, so your investment is protected against obsolescence. It comes with a 132 megahertz PowerPC 604 processor housed on a processor card, which can be easily swapped for a card containing a more powerful processor as your needs grow.

The Power Macintosh 7600/132 gives you all the advantages of PowerPC technology now – with plenty of room to grow later. Built-in video-input capability, high-resolution graphics, 8x-speed CD-ROM drive and CD-quality stereo sound add vitality to everyday projects.

Whether you are selecting a computer for a large institution or a small department, the Power Macintosh 7600/132 system offers PowerPC performance and PCI expandability to give you the versatility you need for professional computing.

The Power Macintosh 7600/132 is supplied complete with Microsoft™ Office Vs 4.21 preinstalled and all of the software you need to access the Internet easily and rapidly.

Power Mac 8500/180

The Power Macintosh 8500/180 is a powerful desktop system optimised for publishing, media authoring and other multimedia-related efforts, and a variety of technical tasks. It comes with a 180 megahertz PowerPC 604e processor, (upgradable through a simple processor card swap); an 8x-speed CD-ROM drive and video-input/output capabilities.

This high performance system makes an ideal choice for in-house publishing and technical applications – and because it's processor-upgradable, it will protect your investment for the future. Built-in near-broadcast-quality video-input/output capabilities, high resolution graphics, an 8x-speed CD-ROM drive and CD-quality stereo sound add vitality to professional projects and – with Apple QuickTime™ software – make media authoring easy.

The Power Macintosh 8500/180: exceptional performance for handling any media as easily as text, to enhance your creativity.

Power Macintosh 9500/200 & 9500/180MP

The Apple Power Macintosh 9500/180MP and 9500/200 computers are the top of the line in speed, performance, expandability and upgradability.

The Power Macintosh 9500/180MP computer represents a new arena for Apple; a multiprocessor system with two 180 megahertz PowerPC 604e chips, which provides simple, but powerful performance improvements for applications that take advantage of its multiprocessing capabilities. The Power Macintosh 9500/200 is simply the fastest Apple Macintosh computer, featuring a 200 megahertz PowerPC 604e processor with six expansion slots that support the industry-standard, high-performance PCI architecture, these two systems are also the most customisable, expandable Macintosh computers in history.

So whether you're involved in publishing, engineering or multimedia – or simply want the most powerful, expandable Macintosh computer ever – one of the Power Macintosh 9500 systems is sure to meet your needs.

Welcome to The Mac Zone Issue 12

Ordering Procedure

You may telephone your order to one of our sales representatives on either our Freephone number, 0800 393 696 or our main switchboard 01483 500 500 anytime from 8.30 am to 6 pm Monday to Friday and 9 am to 4 pm on Saturdays. Outside of these times you may leave your order on our answering machine. Faxed orders can be submitted to 01483 211 567 anytime, 24 hours a day. You will find an order form on page 27 which may be used to place your order. If you want to keep your catalogue intact, please feel free to photocopy the order form as many times as you like.

If you are paying by credit or debit card, please be aware that several credit card companies will no longer authorise mail order transactions where the goods are to be delivered to an address other than the card holders billing address, or to a person other than the card holder themselves. Bearing this in mind, if you do require delivery to a different address or to another person, we would suggest you pay by cheque or bank transfer.

If you qualify for VAT exemption or VAT relief, it is essential that the relevant certificate accompanies your original order, to avoid delays in processing. Carriage charges apply as normal, £5.99 per order up to 10 kilos and £10.99 up to 20 kilos for the UK mainland, (some parts of northern Scotland excluded). For delivery to other areas or countries, special timed deliveries, or for orders weighing more than 20 kilos, please call and ask for a precise figure. Whilst every effort will be made to deliver on time, we cannot be held liable for late deliveries, nor can refunds be made.

The Mac Zone Guarantee

Wherever possible, we will only supply products sourced in the UK. Unless otherwise stated, all items of Hardware and Accessories come with a 12 month warranty and Software carries a 120 day warranty on the media. On site warranties are also available on selected items subject to an additional charge.

In the unlikely event that something you purchase from The Mac Zone U.K. should be defective, you should follow our returns procedure. Simply call us on 01483 500 505 and explain the problem. If we are unable to assist you over the telephone and we believe there is a fault

with the item, we will issue you with a Returns Material Authorisation (RMA) number. You should then return the item to us, within three days of receiving the authorisation, complete with all accessories manuals and any protective packaging, clearly identifying the RMA number WITHOUT defacing the packaging. The customer is responsible for the cost of the return carriage and in-transit insurance. On receipt of the returned item, we will verify the fault and repair or replace the item at our discretion.

If the item proves to be DOA, 'Dead on Arrival', i.e. it has never worked from the start, then providing it is returned (in accordance with the stated procedures), within 14 days of receipt of the item, we will replace it with a brand new unit.

We cannot be held responsible for any damage caused due to the poor packaging of returned items and we advise that you ensure that the goods are covered by insurance whilst in transit. Should the fault prove to have been caused by misuse or anything not covered by the manufactures warranty, we will either return the item or arrange to have it repaired at the customers expense.

We will not accept, or take responsibility for, any item returned other than by the stated procedure or within the stated time.

This guarantee does not affect your statutory rights.

Wacom ArtPad Graphic Tablets

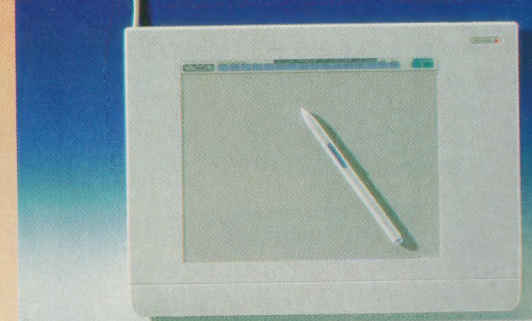

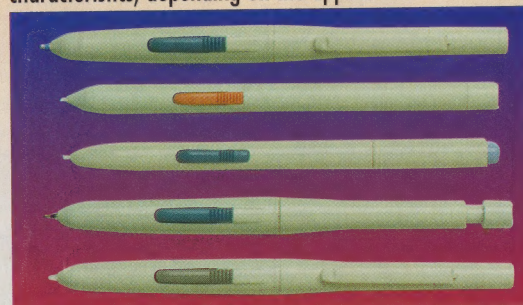

Wacom UltraPads

Using a Wacom UltraPad graphics tablet is as easy, as comfortable, as natural as using a pen.

Whether you're painting in Painter, retouching in xRes or Photoshop, or working with a host of other applications, a Wacom cordless pen and graphics tablet can significantly enhance your creativity and

ease of working. Pressure sensitive pens allow you to vary line thickness, colour density or other characteristics, depending on the application.

You can customise your graphics tablet to match your personal style or special requirements - choose from the wide array of Wacom specialty UltraPens designed to let you work the way you want. There are UltraPens designed specially for handwriting recognition; UltraPens with ink or pencil lead and pens with thick barrels and an extra-soft feel for using with painting software.

Electronic Imaging from your Desktop

Casio QV-10

Open your camera's eyes with this palm sized digital camera, capturing images and instantly downloading them onto your Mac, PC or TV screen.

- Adjust exposure and aperture for lighting conditions
- Use the macro function for close-ups up to 15mm
- 270° lens rotation for awkward shots
- Connect to a Mac, PC or TV/Video for instant presentation
- Images can be downloaded into the camera providing a portable presentation tool
- View one, four or nine images all at once
- Zoom in on any one image or part of an image
- Images are protected even if the batteries go dead
- 10 second countdown for shutter
- Easy delete function

33761

299^{.95}

CASIO

Fuji FV-10

Although almost as small as a paperback book, it's so versatile that you can capture, organise or check images, use it with negatives, slides, prints and 3-D objects. Just plug it into a TV monitor or AV-compatible MAC and the FV-10 will take care of focusing and colour adjustment automatically.

Fast, precise AF

The Autofocus is completely accurate in negative, positive, print and camera modes.

Quality 4x zoom lens

The FV-10 uses a TV-Fujinon lens—the same kind used in television studios. With original EBC coating, it's your assurance of superior optical performance. Or for even higher image quality, use the S-video output jack. A single cable links it to a TV monitor or computer.

The FV-10's Auto White Balance (AWB)

Sets the exact colour balance appropriate to the subject – negatives, slides, prints, objects, or printed materials.

Technology behind the quality

Includes a CCD with 470,000 pixels for high-resolution image capture.

Apple Printer Hardware

Apple LaserWriter 12/640 PS

NEW!

Mac & PC 33475

1,149^{.95}

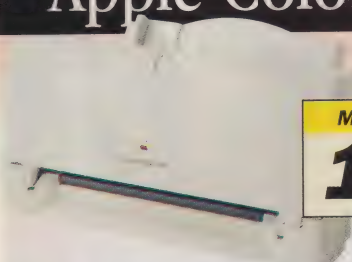

This is a high-quality monochrome laser printer that provides outstanding results – and offers even more impressive paper-handling flexibility, including optional duplex (double-sided) printing. Its networking compatibility makes it a natural for workgroups that use multiplatform local area networks or organisation wide "intranets."

Featuring an advanced laser printer engine, the Apple LaserWriter 12/640 PS can handle up to 12 pages per minute, at an impressive 600 dots per inch.

SPECIFICATIONS

- Offers 600 x 600-dpi resolution for sharp, clear printing
- Includes Apple's FinePrint and PhotoGrade technologies for enhanced text and graphics quality
- Comes with 4MB of RAM
- Prints at a fast 12 pages per minute
- Offers optional duplex printing for professional-looking double-sided output (requires at least 12MB RAM)
- 64 scalable TrueType fonts
- **Features built-in, all-ports-active LocalTalk, Ethernet, and bidirectional parallel interfaces, so it's easy to share your printer with others, including PC's running windows**
- Includes the Adobe PostScript Level 2 and PCL 5 languages
- Supports flexible paper handling with a built-in 250-sheet universal cassette and 80-sheet multipurpose tray

Apple Colour StyleWriter 1500

Mac only 33048

149^{.95}

The Apple Colour StyleWriter 1500 offers a complete solution for easy and affordable colour printing on desktop and PowerBook Macintosh computers. This innovative inkjet printer is perfect for the home and educational users who require colour printing capabilities at an affordable price.

Designed to fit easily into the smallest of work spaces, the Apple Colour StyleWriter 1500 provides a convenient, quiet, personal printing option – but with advanced features.

SPECIFICATIONS

- 720 x 360 dpi for edge to edge smoothing on black and white documents
- 360 x 360 dpi for colour and greyscale documents
- High speed serial or optional direct network connection through the Apple StyleWriter EtherTalk adaptor
- Prints up to 3 ppm for black and white normal mode and up to 0.3 ppm for colour and greyscale mode. *Actual speed depends on the documents printed and the Macintosh used*
- TrueType font support (62 fonts available)
- Adobe Postscript font support when used with Adobe Type Manager (ATM) software
- Multipurpose tray that takes up to 100 sheets or 15 envelopes

Apple Colour StyleWriter 2500

Mac only 33050

279^{.95}

The Colour StyleWriter 2500 is a compact, elegantly designed inkjet printer that provides outstanding performance for both colour, and black and white printing. It's ideal for users who require convenient, superior-quality colour capability without compromising true black text printing.

With its 720 by 360 dpi resolution for both colour, and black and white and its support for ColorSync colour-matching technology, the Colour StyleWriter 2500 easily prints high-quality text and images. It also features optimal ink density, which automatically adjusts the ink saturation to provide the best possible output on a variety of media.

SPECIFICATIONS

- 720 x 360 dpi with ink density optimisation for a variety of paper types
- High speed serial
- Optional LocalTalk or Apple StyleWriter EtherTalk adaptors
- Prints up to 5 ppm for black and white and up to 0.66 ppm for colour and greyscale mode. *Actual speed depends on the documents printed and the Macintosh used*
- TrueType font support (62 fonts available)
- Adobe Postscript font support when used with Adobe Type Manager (ATM) software
- Multipurpose tray that takes up to 100 sheets or 15 envelopes
- Maximum printable line: 206mm
- Minimum margins: 5mm left/right, 3mm top and 7mm bottom

Apple Colour StyleWriter 2200

Mac only 32380

299^{.95}

The Apple Colour StyleWriter 2200 is the perfect PowerBook companion for all Macintosh users on the go. This inkjet printer combines outstanding performance for both colour and black and white printing with true portability – so being on the road doesn't have to mean compromising quality.

SPECIFICATIONS

- 360 x 360 dpi for colour or greyscale documents
- 720 x 360 dpi for edge smoothing on black and white documents

- High speed serial (885 Kbps)
- Up to 5 ppm for black and white
- Up to 0.33 page per minute for colour
- Actual speed depends on the documents printed and the Macintosh used
- TrueType font support (64 available)
- Adobe PostScript font support when used with Adobe Type Manager (ATM) software
- Built-in automatic paper feeder tray holds up to 30 sheets of plain paper, 8 sheets of speciality media or 5 envelopes
- Maximum printable line: 206 mm
- Minimum margins: 5mm left and right; 3mm top; 8 mm bottom

Global Village Communications Products

TelePort Platinum

28,800 bps external Fax/Modem for Macintosh

**FREE
UPGRADE TO
33.6KPS**

Send and receive data at up to 28,800 bits per second (bps) – based on the V34 standard – and fax at up to 14,400 bps. Supplied with the award-winning GlobalFax™ software with features that make faxing easier than ever.

- QuickDraw GX compatibility
- The Global Village Fax Centre
- Fax as easily as you print: simply hold down the Option key and GlobalFax adds a Fax command to the File menu received
- Calling-card and billing-code support, to help you manage your fax call charges

Remote Access

With Apple Remote Access (ARA) software (available from Apple), you can use TelePort Platinum to dial into your office network from home – to check your e-mail, transfer files, and use other network resources – all at speeds of up to 28,800 bps.

Incoming Call Recognition

If you use one phone line for your telephone and fax/modem, and you have an answering machine attached, the TelePort Platinum will recognise whether the call is a voice or fax and react appropriately.

(may not work under certain circumstances)

Quick Reference Price Guide

Here is an up to date guide to most of the products available from The Mac Zone UK. You may like to detach this guide from the catalogue and retain it for future reference. All prices are subject to availability.

Most of the items listed are available from our own stock, however if we are unable to supply an item immediately from stock, we will be happy to give you an estimated delivery time, or an alternative suggestion.

Available for all Macs with an ADB port and a 12 inch or larger video display with 16 colours or 16 shades of grey. Compatible with System 7 or greater.

The Mac Zone Terms and Conditions of Sale

Policies, Terms and Conditions

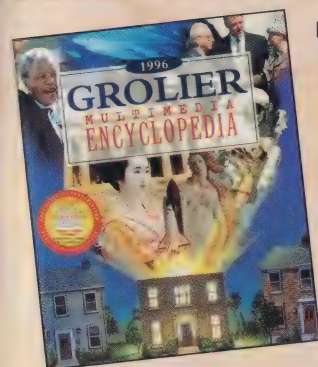

- Goods are not supplied on a trial basis.
- All prices quoted are exclusive of carriage and V.A.T. (unless otherwise stated.)
- Certain products have minimum system or configuration requirements. We suggest if you are unsure of what these are, that you contact us, or the manufacturer, prior to purchase, since we do not take back, for refund or exchange, any opened items that are suitable for the purpose intended. Unless we are specifically asked about requirements or compatibility, we shall assume the customer is aware of what these are.
- If we have to part ship an order, due to a temporary stock shortage, carriage is only charged on the first consignment – subsequent part shipments will not carry a delivery charge. We will always try to let you know if an item is out of stock when you place your order. If, however, you order new release items, we shall hold the order until all items are in stock, unless you agree to pay a shipping charge per item sent.
- Prices and promotional offers are subject to change without notice.
- Access, Mastercard, Visa and American Express Credit Cards are accepted without surcharge, however, we do reserve the right to deliver only to the card holder's billing address, or other address acceptable to the card issuer.
- Connect and Switch debit cards are cleared immediately, however, we do reserve the right to deliver only to the card holder's billing address, or other address acceptable to the card issuer.
- Your credit/debit card is not charged until the day your order is shipped.
- Personal and business cheques are welcome, but will need to be cleared before the goods are shipped. This takes 5 working days from when we receive the cheque. Bankers Drafts, and Building Society Drafts are acceptable, but will need verification and may take some time to clear. Postal orders are acceptable and are cleared immediately. You may also transfer funds directly into our bank account, in which case goods can be shipped straight away. Please speak to your sales representative to obtain the details and procedures.
- You may ask for your cheque to be presented for express clearance, however a £10 + VAT fee will be charged for this service.
- Education and Government orders are acceptable subject to the institution's acceptance of our trading terms and conditions. Unless otherwise expressly stipulated by the Company, credit account invoices are due and payable in full 30 days after the invoice date. If an invoice becomes overdue, we reserve the right to charge interest on overdue amounts at 3% above Barclays Bank Plc base lending rate from the time the amount becomes overdue, until the invoice is paid in full.
- No property or title to goods shall pass from the Company to the Customer until the full amount of the value of the goods has been credited to the Company's bank account, however, the customer is responsible for the goods from the time of delivery and liability to insure the goods then rests with the customer.
- The Company reserves the right to not accept cancellation of orders or the return of unwanted goods, however, at the Company's discretion, it may be prepared to accept cancellations or returns subject to the payment of a restocking fee of 5% (minimum amount £25) and that the returned items are in a fully marketable condition. Cancellations must be made in writing after having called us, in advance, to obtain a "Cancellation Number".
- All products (including special offers, upgrades, and promotions) are subject to availability and we do not guarantee to fulfil orders at the prices stated in the Catalogue.
- All products are covered by manufacturer's warranty.
- All shipments in transit from the Mac Zone are covered by carrier's insurance.
- The Customer's signature will be required at time of receipt and goods cannot be left without such signature.
- Claims for non-delivery, missing items or damage to goods in transit must be made within 3 working days of expected delivery. Claims will not be accepted after this time.
- Acceptable orders which have been placed and credit cleared by 3.00 p.m. weekdays will be dispatched that day for expected delivery in Mainland UK during the next working day. (barring system failures, etc. Some areas of the U.K. are excluded).
- The Mac Zone can accept no liability for performance or late delivery of goods supplied. In any event, liability shall not be greater than the value of the goods supplied.
- All illustrations and product descriptions featured are for guidance only. Actual packaging and product design may vary from those shown.
- We are not responsible for typographical errors.
- Please also see our ordering procedures, guarantee and returns policy on page 5.
- The offer stated for the FREE Corel PhotoCD featuring Christmas is for the limited period of November and December 1996 or whilst stocks last.

WITH JUST ONE CLICK, GROLIER LETS YOU UNLOCK THE UNIVERSE.

PICASSO THE MAN, THE WORKS, THE LEGEND

THIS CD-ROM SHOWS A SUPERB SELECTION OF THE WORKS OF PICASSO IN THE CONTEXT OF HIS CREATIVE PERIODS AND THE THEMES HE USED. 600 OF PICASSO'S WORKS OF ART ARE BROUGHT TOGETHER FROM 70 DESTINATIONS. THESE ARE ACCESSED IN FOUR MAIN WAYS.

- A GUIDED TOUR,
- A DIARY OF HIS LIFE'S WORK SPLIT INTO 17 MAIN PERIODS,
- THE THEMES WHICH INFLUENCED HIM
- A GALLERY OF ALL 600 WORKS

A QuickTimeVR panorama introduces the 17 key work, each of which represents a creative period, accompanied by archive photos of the life and childhood of Picasso and his artistic associates.

KEY FEATURES:

- More than 600 works of art (paintings, drawings, ceramics, photos)
- 100 major works examined in detail
- 120 photos of Picasso, his workshop and family and other artist's work
- Archive documents
- QuickTime VR, with objects and panoramas, zooms etc.....

The latest fashions from Apple!!

Dr Solomon's

Casady & Greene

Dr. Solomon's range of award winning Anti-Virus Toolkits provide comprehensive protection against the threat of viruses.

The Toolkit continuously monitors for viruses, no matter how a virus attempts to infect, the Toolkit will stop it: files, disks and internet downloads can all be checked for any sign of a virus. A comprehensive Virus Encyclopedia is included with the Toolkit for in-depth information about the type of virus that you have encountered.

DR. SOLOMON'S ANTI-VIRUS TOOLKIT

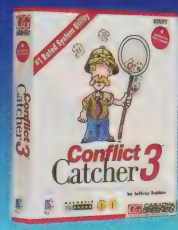

- Award-winning technology
- Fast and thorough virus detection
- Virus can be effectively removed leaving a clean system
- User-friendly
- Known viruses are comprehensively documented in the Virus Encyclopedia
- Free technical support, 24 hours a day, all year round
- Quarterly updates are included for a whole year once you register the product

NEW!
for the Mac Zone

33770

69.95

The Toolkit accurately detects and removes all known macro viruses and FREE technical support is provided for any virus emergency.

CONFLICT CATCHER 3

- Suggests startup files suspected of causing a system problem
- Identifies damaged files that could be responsible for system problems.
- Remembers when each startup file is added and checks the newest ones first

Conflict Catcher 3 redefines the industry standard in startup file conflict identification. It takes the mystery out of your Mac by identifying startup files at bootup. Conflict Catcher 3 automatically scans your system for damaged startup files, allows you to colour code your startup

files for quicker viewing, and saves you time by testing the startup files you think are causing problems first. It features a handy optional name labelling feature at bootup so you can finally know what your startup icons represent.

31828

59.95

SPELL CATCHER

NEW!

- Works on e-mail, data bases, word-processing programs and most other platforms
- The updated and newly named version of Thunder 7
- Automatically alerts you to spelling errors as you type

Spell Catcher delivers benefits well beyond your on-board spelling checker or thesaurus. It indicates each spelling or punctuation error you make, as you make it. It works interactively with almost any application, desk accessory and e-mail program! You can even abbreviate commonly used phrases while Spell Catcher types out the

full-blown phrase for you while also checking punctuation and capitalisation. All your keystrokes are constantly recorded by the Ghostwriter so you won't lose precious work.

STUFFIT DELUXE 4.0

STUFFIT DELUXE 4.0 IS THE INDUSTRY STANDARD IN FILE COMPRESSION FOR THE INTERNET

- Faster Stuffing and Expansion
- Drag and Drop Segmenting
- Expand even more files from the Internet
- Access archived files right from the Finder
- Over 50 other improvements

Stuffit is the industry standard for file compression. It is also the Macintosh compression standard on the Internet. With it you can effectively double your disk space, time and money when sending files over networks and the Internet, easily trade files between Mac, PC and UNIX users, and back up important files. Among the 50 new improvements in Version 4 are: Stuffit Browser, which accesses files in archives right from the Finder; archiving files based on specific criteria; and SpaceSaver tags. It's the most complete compression solution available today!

BestWare Accounting Software

MYOB

Version 5 for Macintosh

BestWare

THE BEST ALL-IN-ONE ACCOUNTING PACKAGE FOR ONLY

31224

149.⁹⁵

IDEAL FOR HOME AND SMALL BUSINESS USE

M.Y.O.B. Version 5.0 is faster, more powerful and even easier to use. Its new feature list includes The M.Y.O.B. Analyst, an easy-to-access financial analysis tool; a wide range of user definable preferences; VAT cash accounting; improved job tracking actions; an enhanced To Do list with 'Next Logical Step'; integral backup and restore, and 100 business templates.

M.Y.O.B. was designed from the start to be easy to use, and requires little or no book keeping knowledge. As you key in an invoice, purchase order or payment, the software automatically posts entries to the appropriate ledgers. M.Y.O.B. provides a comprehensive, flexible reporting facility for any period during the previous twelve months.

M.Y.O.B. Analyst

- Ready with powerful tools for instant access to performance-to-date analysis, budget reports and graphs, as well as your To Do list and enquiry register

VAT Accounting

- Both cash and accrual based

To Do List

- Enhanced 'action' column enables you to record payments, pending invoices or purchase orders, and activate other options

Job Tracking

- Track by the job or differentiate between departments, and assign job numbers to balance sheet accounts

Backup and Restore

- Now there is no need to exit the program to save your data files

Forms

- Set your professional standards with the invoices provided, or customise them to meet your exact needs
- 'Next Logical Step' through the To Do list, enabling you to print cheques, deliver orders and process invoices faster than ever before
- Full support for recurring cheques, sales and purchases
- New Easy-Fill™ feature allows you to enter just the first few characters of an item or a name

Upgrades Available

An upgrade to version 5 is available from the Mac Zone for owners of a previous version of M.Y.O.B. or BestBooks

Outstanding Utilities From Symantec

SAM 4.0

If your Macintosh has a virus, SAM wipes it out. If your Macintosh is virus-free, SAM ensures that it stays that way. SAM installs easily, then works automatically without getting in your way, watching for suspicious activity that could indicate a virus. SAM detects every known virus and every type of viral activity, even in compressed files.

SAM also creates a custom decontamination disk, so that you can easily reboot if a virus causes your system to crash.

SAM takes full advantage of the faster performance that a Power Macintosh offers. SAM still works as effectively as ever – and faster than ever – on all earlier Macintosh systems.

54.⁹⁵

SUITCASE 3.0

Suitcase, the best-selling font manager, gives you essential, automatic control over fonts, so you're free to do your best creative work. Now that it's native for the Power Macintosh, Suitcase provides even more power to put your fonts in order and meet your deadlines with ease.

31709

54.⁹⁵

ACT 2.5

More than a personal information manager, ACT! keeps information about every business contact you make - including a full address book and contact log, details of conversations, lists of actions, items to complete, and an activity scheduler with built in alarms. ACT! includes a full featured word processor so you can create personalised letters, faxes, reports and mailing labels with almost no typing. You have never been so organised!

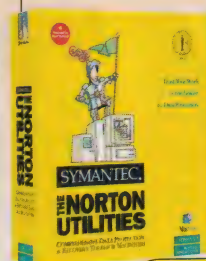

31533

129.⁹⁵

NORTON UTILITIES 3.2

This is the most powerful collection of tools ever developed for protecting and recovering your data. Only Norton Utilities offers you comprehensive data protection. It scans for disk errors in the background – alerting you to any problems before data is harmed – and also automatically notifies you when routine maintenance is recommended. Together, these features provide continuous protection, without interrupting your work.

If disaster strikes, Norton Utilities includes all the tools you need for complete data recovery and disk repair – with powerful features such as the Norton Disk Doctor® and UnErase®. The Norton Utilities automatically identifies any problem and then makes any necessary repairs.

AppleSoft Applications

CLARIS

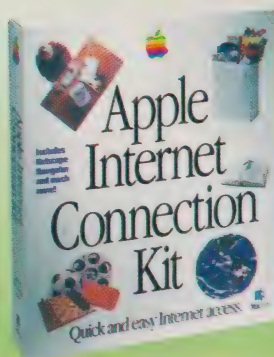

System 7.5.3

Apple's System 7.5 version 7.5.3 includes a comprehensive set of new system software enhancements designed to provide new functionality and enhanced system performance. At the same time, it significantly improves the overall reliability of Macintosh and Mac OS-compatible systems. All Macintosh computers should see a performance boost while the Finder is copying large numbers of small files. More specifically, this update has additional PowerPC native system software components.

CD-ROM 31668

Claris Makes Licensing Software Easy with The ClarisPlus License Scheme

Software is the driving force behind your organisation's productivity. But why spend a premium to license it 'one at a time'? Why take up valuable space with piles of boxes, duplicated documentation and extra disks? Claris makes licensing software simple and with the recent integration of the Apple software product line,

Claris are offering more flexibility and a wider breath of products for software volume licensing needs. Claris licensing programmes enables small business, corporate and educational organisations to efficiently purchase needed software, while reducing administrative overhead and distribution costs - whether your purchasing needs are 5 or 5,000 units.

Claris offers a number of ways to purchase licensing based on your requirements. It's a simple equation: the higher the purchases, the lower the licensing price per unit.

Please call for details on your tailor-made package of AppleSoft and Claris software products for your establishment.

Macromedia Graphics Software

Macromedia FreeHand 7.0

**NEW
VERSION**

THE MOST POWERFUL DESIGN TOOL FOR PRINT AND INTERNET GRAPHICS

FreeHand, the most powerful cross-platform design tool for print is now the most powerful tool for Internet graphics. FreeHand 7 with Shockwave enables users to create stunning illustrations and designs using amazing graphics creation and effects tools, comprehensive text tools and a multi-page layout environment.

Offering an extensive feature set, built-in features for moving graphics to the Web, integration solutions for easing workflow, superior performance and new features for print output, FreeHand 7 has everything users need to develop simple illustrations or complex designs with minimum effort.

NEW FREEHAND 7 FEATURES INCLUDE:

- Shockwave - Use Shockwave to leverage existing FreeHand files to deliver beautiful resolution-independent vector graphics to the Web.
- Internet Standards Support - Take advantage of other new Internet capabilities with features for import and export of popular file formats.
- Integration - Superior integration with leading graphics applications including Macromedia xRes, Extreme 3D and Fontographer, as well as with Photoshop, Illustrator, PageMaker, QuarkXPress and Acrobat.
- FreeHand works better with Photoshop than any other design application. Use drag and drop; copy and paste use Photoshop filters in FreeHand; and launch and edit Photoshop from within FreeHand.
- User Interface - FreeHand 7 features the new Macromedia User Interface, which sets a new standard of consistency across all Macromedia applications and makes it easy to work with all the programs together.

KEY ENHANCEMENTS INCLUDE:

- Draggable tabs in palettes.
- Dockable palettes can be snapped to each other
- Full Colour Autotrace.
- Graphic Search and Replace.
- Automation - FreeHand 7 takes the drudgery out of repetitive tasks with Macromedia Scripting.
- Colour Features - Support for new colour matching solutions, including Apple Colour Sync support and Kodak Digital Science ICC profiles.
- Easy Print Output.
- New effects include envelope distortions, bend and roughen, as well as amazing new blend options.
- Chart Creation Tool - Create sophisticated bar, line, pie and area charts from scratch.

Microsoft

Microsoft Office FOR MACINTOSH, Upgrade Offer

Microsoft Office is a must for all Macintosh users, supplying advanced users with powerful and rich features including the latest versions of Microsoft Word, Excel and PowerPoint, whilst at the same time offering ease of use and reliability for occasional and novice users.

TAKING YOU INTO THE FUTURE
Office provides sophisticated ease of use and IntelliSense technology (for example TipWizard® assistant, AutoFormat, Table Wizard, Report Wizard) for new users, as well as a rich feature set that you can take advantage of as you grow with your Macintosh.

WORD PROCESSING

There is an immense importance for a powerful word processor in almost every possible working environment. Office assists you, the user with sophisticated features such as Revision Marking, AutoCorrect, AutoText, 100 level Undo, unlimited Drag and Drop, IntelliSense and context-sensitive Help.

SPREAD SHEETS

Many users of spreadsheets require advanced features, exceeding basic capabilities of alternative products. Office keeps up with this challenge by offering dynamic data analysis tools like the PivotTable®, auditing tools, statistical analysis, hundreds of functions, savvy AutoFill, and Rich Cell editing.

PRESENTATION

For presentations, public speaking, and effective communication, Office contains a fully-featured presentation program. Templates, transition and build effects, powerful graphing tools, Wizards, IntelliSense technology, and the option to use different output media maximises the ease of use.

This licence pack is available to students aged 16 or above, who are engaged in full or part time education.
The pack contains a purchasing form and a sample licence. The purchasing form must be completed and countersigned by the institution to which the student is enrolled, and then mailed to Microsoft direct. When the licence has been validated by Microsoft (by checking that the student is enrolled on a recognised study course at a DfEE recognised institution) the full pack is shipped within 28 days.

Microsoft CD-ROM Titles

Microsoft® Encarta™ 96 World-class Multimedia Encyclopaedia

Fully revised and updated edition. A vast universe of knowledge comes to life on your Mac with stunning animations, videos, maps, charts, sounds and pictures which take the effort out of learning.

New Software Titles from Adobe Systems

Adobe

Acrobat 3.0

A major upgrade for the standard in electronic document creation

Acrobat 3.0 is one of the fastest and easiest solutions for sharing any document on line

With version 3.0, you can use existing software tools, such as word processors, spreadsheets, presentation and page layout packages, to create rich, cross-platform documents that are completely integrated with corporate Intranets and the World Wide Web.

Acrobat 3.0 includes Acrobat Exchange, PDF Writer, Acrobat Distiller, the Acrobat Capture plug in, Acrobat Catalog and Acrobat Reader in a single box

Upgrade 33657

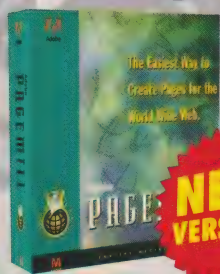

49.⁹⁵

Full Product 33653 **149.⁹⁵**

New Functions and Features

- **Seamless viewing, browsing and serving.**
- **Interactive form processing.**
- **Capture printed documents online.**
- **Adding dynamic contents to PDF files.**
- **The fastest way to publish documents online.**

Adobe PageMill 2.0

Creating a Web page is as easy as using any of your favourite Macintosh or Windows applications

The pages that you create with PageMill can be hosted to any Macintosh, Windows NT, or UNIX server. With Adobe PageMill, you never need to use complicated HTML tags – you create all contents by directly editing what you see on the screen.

Need to create links? Simply drag a page icon from one document and drop it into another. It's that easy!

Need to place images in your Web page? Just copy and paste your images and PageMill automatically converts images into the appropriate format.

New Placeholders Feature in PageMill Version 2.0

Support for advanced Web page elements, you can use the Placeholders feature to easily extend PageMill 2.0 software's support for advanced Web page elements, such as the latest HTML extensions and interactive programs generated by third party development tools.

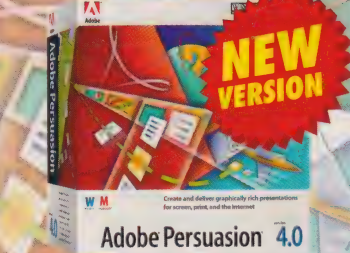

Upgrade 33660

69.⁹⁵

Adobe Persuasion 4.0

Persuasion 4.0 offers the widest array of presentation delivery options

The powerful new features enable you to create exciting, dynamic presentations that include movies, sounds, hyperlinks, and other graphically rich elements, then deliver them across the Internet and intranet using Adobe Acrobat 3.0 software.

Links management tool

Shows the location, size, and version of linked graphics, movies, and sounds.

Internet autotemplates include coordinated colours, backgrounds, and buttons designed to match AutoTemplate designs for overheads, 35mm slides, and on-screen presentations.

Conversion utility for Microsoft® PowerPoint® files

Enhance your PowerPoint presentations.

Includes two FREE fully licensed copies of Persuasion software, one for the Macintosh and one for Windows and **Adobe Acrobat Distiller 3.0 and Acrobat Reader 3.0 software**; Persuasion Player; extensive, tutorials on CD-ROM; more than 125 autotemplates; over 500 colour clip art files; a collection of movies and sounds and ATM® and 20 free fonts.

Coming Soon

Call

Adobe SiteMill

Adobe SiteMill software makes creating and maintaining a Web site more efficient through an easy drag and drop interface. You can paste links, rename or move files and the software automatically updates all links. Adobe SiteMill also scans the existing Web site for errors, flagging unreachable or unused links and

automatically correcting them.

Upgrade 32932

99.⁹⁵

Full Product 32925 **139.⁹⁵**

Adobe SiteMill also includes all the Web Page authoring features found in Adobe PageMill version 1

Adobe Photodeluxe

Adobe PhotoDeluxe software lets you unleash your creativity. You, have the choice of following a guided activity or experimenting on your own. Either way, you have the same easy-to-use tools at your reach.

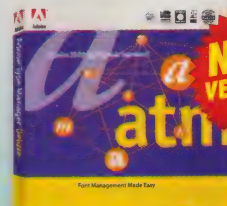

Key Features

Easy-To-Use Interface, over 25 Guided Activities, Photo Input and Output, special effects, photo Editing, clean up and retouch old photographs with QuickTime User Help and On-line Help Panel

33174

69.⁹⁵

Adobe ATM 4.0

Simulate fonts you don't have on your system which take up the same space

on screen with a preserved x-height and stem width. ATM 4.0 will also improve the display and printing of all Type-1 Postscript fonts on

PostScript and non-PostScript printers. ATM 4.0 manages fonts a lot better with printable samples of each font and viewable font metric information.

Upgrade to the latest Adobe software

On-line publishing

PageMaker 6.5 empowers users to create compelling on-line publications as well as sophisticated print documents. HTML authoring is streamlined as PageMaker preserves hyperlinks and automatically converts graphics to JPEG and GIF file formats. Users can also drag and drop PageMaker elements into Adobe PageMill™ and Adobe SiteMill™ for further HTML authoring.

Colour Publishing

PageMaker offers designers the most complete set of tools for creating high-impact colour publications. PageMaker 6.5 elevates the state-of-the-art in colour printing by refining colour technologies and enhancing usability.

Adobe

PageMaker 6.5

The first professional page layout application to offer document-wide layers and automatic layout adjustment for creating print and Web documents.

Professional page design

PageMaker 6.5 adds breakthrough page layout features that expands creative options, saves design time and offers new capabilities. By incorporating document-wide layers, PageMaker 6.5 is the first publishing application to enable users to place objects on different layers within a publication.

To save time, when users change columns, margins, page sizes or master pages automatic layout adjustments, reflow text into columns, resizes graphics and repositions objects on the page, eliminating the need to perform these steps manually.

Adobe Integration features

Helping users increase their productivity with Adobe software, PageMaker 6.5 looks and works more like Adobe Photoshop® and Adobe Illustrator®.

PageMaker 6.5 ships with a **FREE** copy of Adobe Acrobat Distiller® software and Acrobat Reader. Adobe Table 3.0 software and the Adobe Type On Call® CD ROM with 220 free fonts, unlocked upon registration.

Upgrade 33825

99.⁹⁵

Full Product 33823 **399.⁹⁵**

5 User Pack 33824 **1,499.⁹⁵**

New Functions and Features

- **Document-wide layers**
Streamline document management for multiple versions and notes.
- **Automatic reformatting and layout adjustment**
Re-propose pages for online delivery simply and easily.
- **Hyperlinks palette**
Easy authoring and importing of links from any Web page.
- **Support for Adobe Acrobat 3.0**
For electronic publishing in PDF.
- **HTML plug-ins**
For placement and export of HTML elements or complete pages.
- **Interactive, tabbed palettes**
For rapid, intuitive working.
- **Text and graphic frames**
For structured layout, in addition to PageMaker's existing 'free-floating' method of working.
- **Save for Service Provider plug-in**
For easy hand-over of jobs.

Adobe

Photoshop 4.0

The new version of the industry-leading image editing tool

Photoshop 4.0 enhances productivity

The Actions feature in Photoshop version 4.0 dramatically increases user productivity with the ability to automatic editing functions, streamlining tasks such as image retouching and down sampling, file conversion, filter operations, and even batch processing of multiple images. You will also benefit from pre-saved Actions in version 4.0 for tasks such as down sampling images to 72 dpi for Web posting, saving GIF and JPEG files with optimal Web settings, and adding drop shadows to text.

Powerful creative control

Adobe Photoshop 4.0 provides unparalleled creative control with features such as Adjustment Layers, the Free Transform tool and Custom Gradients. With Adjustment Layers, Photoshop users now have the ability to perform image colour adjustments without affecting the original image data.

Additionally, users will save time and money by having direct access to Photoshop product and technical information, updates and plug-ins, on the Adobe home page via a Web link within Photoshop 4.0.

The program will ship on CD-ROM and will include an interactive tutorial CD-ROM, featuring stock photography, sample plug-ins, a digital gallery and Adobe tryout software.

Upgrade 33834

149.⁹⁵

Full Product 33831 **399.⁹⁵**

5 User Pack 33833 **1,499.⁹⁵**

New Functions and Features

- **Faster display**
New caching technology speeds up common display and layer operations.
- **Automation with Action lists**
Macro-style scripting allows semi or fully automatic batch file working.
- **Guidelines and grids**
Precision placement through lines and snap-to grids.
- **Navigator palette**
Fast and flexible access to any part of an image while working close-up.
- **Adjustment layers**
Powerful new way of applying image transformations to layers without risking original image data.
- **Gradient tool**
Enhanced gradient control, similar to that of Adobe Illustrator 6.0.
- **Freeform Transform tool**
Combines a variety of image manipulations in one interactive tool.

The Custom Gradients palette lets users achieve new levels of creativity with the ability to customise multi-colour gradients, with varying opacity, that can be saved and shared.

Adobe Photoshop 4.0 offers breakthrough technology for the protection of intellectual property with the addition of digital watermark capabilities.

New file format support in version 4.0 provides users with a broad range of useful Web file formats.

Licensing Options

SOFTWARE LICENSING

Take advantage of the substantial savings on offer when purchasing software in volume. Many manufacturers are keen to issue site licenses to Schools, colleges, small businesses, corporates and similar establishments offering great discounts on volume purchases and upgrades.

Licenses are available to consolidate & legalise your existing software alongside new purchases allowing you to qualify for these discounts. Mix & Match licenses are also available which take into account different products from the same manufacturer, meaning establishments with as few as 8-10 computers can still take advantage of these reductions.

Most licenses are issued in the same way: giving you one full product; Floppy Disc or CD together with manuals and the licence to copy the product for the required number of users. If you then wish to extend the number of users then it is a simple matter of calling The Mac Zone who will issue you with further copying licenses. The same applies to upgrades.

- **Substantial savings**
- **Consolidation available on existing products**
- **Mix & Match available from selected manufacturers**
- **Easy Install**
- **Call our sales team for pricing and further details all leading titles available**

29.⁹⁵

Be productive in minutes – without learning programming

- Includes six professionally-designed database templates.
- Create databases automatically from raw data – import text, DBF, DIF, WKS and more.
- Quickly create powerful databases with variable length text fields, automatic indexing and more.

Transform data into useful information

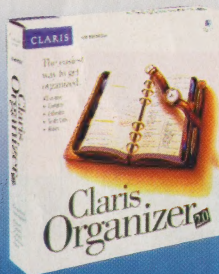

- Set up relational databases by simply dragging and dropping fields on a layout.
- Instantly create multiple views of your data.
- Access word processing functionality.
- Use more than 100 calculation functions to automatically enter, validate and analyse data.

Make your information work even harder

- Find your records fast, from any view without having to learn a separate "query" mode.
- Sort data, using any field.
- Create compelling forms and reports with comprehensive graphics tools.
- Add impact to your files with graphic images, photos and QuickTime movies.

Create powerful solutions yourself

- Automate routine tasks and menu commands with the ScriptMaker feature.
- Protect your data with password control.
- Share files transparently between Macintosh and Windows versions.
